

Project Description

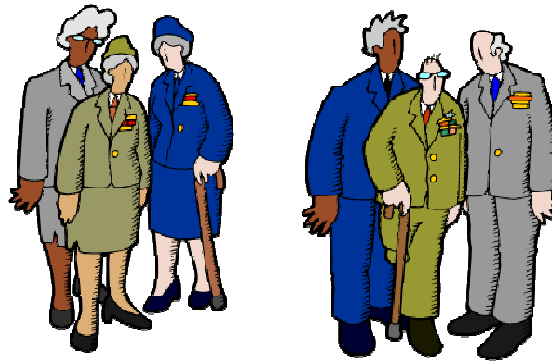

The South Shore Genealogical Society has an on-going project to obtain information concerning veterans who served in the protection of Canada, at war or in peacetime, both before and after Canada became a country.

This includes service as a Canadian in other countries' forces e.g. RAF , US forces, Germany, etc.

This information will become part of an in-house research file accessible to individuals conducting genealogy research. Excerpts may be used in genealogy searches on the web or in person and potentially for future publication of books profiling veterans in Lunenburg County. We are also interested in pictures of the veteran, their tombstone, etc.

Credit will be given to the donor(s) supplying information concerning the veteran.

Please fill out the form to the best of your knowledge. Feel free to add sheets with additional information if space is insufficient.
